Changing isn't nearly as difficult as you perceive. You already are a brilliant person, you're a masterpiece in progress, and you have the ability to design your life rather than make a living. All of us experience turbulence at some point. True leaders rise above the fear that accompanies the turbulence. Fear can knock you down if you let it in. The leader who chooses to inspire reduces the impact of that turbulence and fear and brings safe passage to those who embark on the journey. Leadership starts at the top but it really begins in the heart.
